Intelligence in document management

SpooliT Enterprise ROI

SpooliT makes instant positive returns

The 30 Second case

1. First 48 Hours Saves \$1500+ Solves Report's 'Achilles heel'

- Data conversion \$\$
- Report reformatting \$\$\$
- Tedious administration \$\$\$
 - Saving 10 FTE hrs+
 - + You get \$500 cash back
 - Total potential saving \$1,500

2. Internal Roll out: Saves \$15,000+

- Report distribution \$\$\$
- Workflow automation \$\$
- Decentralised editing \$\$
- Duplication and time \$\$
- Consumables costs\$

You are ahead 150 FTE hrs+ P.A. Simply on tedious IT tasks

- that's without calculating:
- workflow improvements,
- overhead savings,
- + new capabilities accrued

And you'll outlay \$0 initially by choosing IBM Finance.

Zero Upfront Cost
Zero Disruption
With Asymex, we've made it so.
Now you can.

This SpooliT ROI is a reflection of the common experiences of SpooliT clients. Even those who choose a FREE 15 day trial can realise these results in the first 48 hours.

SpooliT's flexibility means that individual results may vary so we have deliberately taken a conservative estimate case.

The Detailed Case

1. First 48 hours = \$1,500+ in equated savings, just for starters!

Resolves your:

- Spool File conversion and report manipulation issues
- Archiving and delivering reports in softcopy

Saves you:

- Report administration formatting
- Small Firm: 10+ hrs/month +
- Large Firm: 5 days/month +
- Waiting time for report collation

You invest:

- 2 hrs for a valet install & training
- 1 hour creating templates to your preference
- 1 hour testing your systems

* Receive \$500 cash back when you purchase

Meaning:

- You gain 10 FTE hours+ in your IT department through wages, opportunity costs and IT Frustration

2. Internal Roll-Out: Save a minimum \$15,000 P.A. on IT alone.

Resolves your:

- Ability to automate daily/weekly/month reports such as:
 - Monthly statements
 - Inventory levels
 - Regional sales
 - Compliance data
 - Payment schedules
 - Transaction receipts
 - Account cash flows
 - Sales commissions
 - Aged accounts
 - + much more
- Ability to store Spool Files in easy to access digital formats
- Ability to use digital archiving on the iSeries

Creates for you:

- Straight through workflow processing corporation wide
- End User ability to mine and manipulate data (with secure access)
- Seamless data integration with other in house systems (CRM/ERP)
- Limitless depth of transparency through report versatility
- Flexibility to quickly gain ad hoc data by intelligent searching
- Ability to scan historical archives in an instant
- Gains in increase efficiency through enhanced reporting capability
- An IT team which can concentrate their time on new projects
- Professional 'looking' automated report templates

Saves you:

- 10-100+ hours of tedious IT administration per month
- The IT overhead associated with Spool File administration
- Printing, faxing, mailing and consumable costs
- Corporate wide decision waiting time, previously dependant on report request results

Costs you:

- Software purchase price or even better...
- Use \$0 Upfront IBM Financing

3. Wider SpooliT Application and External Rollout

Creates for you:

- Stronger integration with external systems
- Customer facing report delivery methods
- Enhanced supply chain communication methods
- Paperless office environment (on demand printing)
- Ability to fully automate reporting

Now you can. With SpooliT your only constraint is the time to create new ways to apply the power of SpooliT to improve your workflow.

IBM Server *Proven*

Perfect Reporting

- Everytime
- Automatically
- Any format
- Any file type
